## VERSE ONE

The earth will know your name  
The whisper of your voice  
Let all creation give You praise  
The Continents in drift,  
The nations ever change  
But your glory and Your power remain

## CHORUS

The earth is yours, the earth is yours  
The earth is yours, and all within  
Will give you praise, will give you praise  
for who you are  
The stars above, the ground below  
The universe, and all you made  
Will give you praise, will give you praise  
for who you are

## VERSE TWO

The heavens will proclaim  
Your worth and majesty  
Salvation on display for all  
Creation will cry out  
Let Your will be done  
And Your Kingdom come here on earth

## CHORUS

The earth is yours, the earth is yours  
The earth is yours, and all within  
Will give you praise, will give you praise  
for who you are  
The stars above, the ground below  
The universe, and all you made  
Will give you praise, Will give you praise  
for who you are

## BRIDGE

You restore  
You give hope  
You came to earth so you have shown  
You are life  
You are love  
You set us free

You restore  
You give hope  
You came to earth, you have shown  
You are life  
You are love  
You set us free

## CHORUS

The earth is yours, the earth is yours  
The earth is yours, and all within  
Will give you praise, will give you praise  
for who you are  
The stars above, the ground below  
The universe, and all you made  
Will give you praise, Will give you praise  
for who you are
